**BRIDGE TO TOTAL FREEDOM – A NO-GAME CONDITION**

Since 1965, Ron has called our bridge simply "**Classification and Gradation Chart**"

Since 1983, the new Church management has renamed the bridge to

**"Bridge to total freedom"!?**

This wording contains a no-game condition and is therefore out-tech!

Ron wrote this in September 1956 in a book:

„Life is a game. A game consists of freedom, barriers and purposes. This is a scientific fact, not merely an observation.

Freedom exists amongst barriers. A totality of barriers and a totality of freedom alike are no-game conditions. Each is similarly cruel. Each is similarly purposeless.

Great revolutionary movements fail. They promise unlimited freedom. That is the road to failure. Only stupid visionaries chant of endless freedom. Only the afraid and the ignorant speak of and insist upon unlimited barriers.“

[Hubbard, L. Ron, 1972, "The Fundamentals of Thought", chapter 6:  
1<sup>st</sup> edition, Copenhagen, Scientology Publications Organization Copenhagen]

Since the year 1983, the CST (Church of Spiritual Technology) has been regularly publishing a substantial amount of new editions of the "Bridge to total freedom", which can be seen in the copyright entries in the "Library for the (US) Congress" ([www.LOC.org](http://www.LOC.org)):

- *The bridge to total freedom : new streamlined classification, gradation & awareness chart of levels & certificates.*

or later on

- *The bridge to total freedom : Scientology classification gradation and awareness chart of levels and certificates.*

Even today I can find "improved" versions of the bridge<sup>1</sup> on the CoS website as compared to the previously mentioned ones.

In the target of the nice PC's and OT's a non-game requirement has been stated! Well then, good night! Statistics prove it.

*"So these former efforts were entrapments, and this is not an entrapment. It is not even a total freedom. I've even told you occasionally total freedom would be existence without barriers, and I think you would find everybody very miserable." LRH in lecture 6106C26, DEALING WITH ATTACKS ON SCIENTOLOGY, 26th June 1961*
